Received your shipment?

You are requested to do the following:

- Once you receive the shipment, please ensure that you record the video of your robotic kit unboxing and ensure all the mentioned components are present in your robotic kit. We will ask for unboxing video only in case you report to us about any missing/damaged component. Make sure video is unedited and must begin with the team member/s dismantling the protective covering of the main outer box.
- Check the contents of the Robotic Kit against the checklist provided in your kit.
- Please test the provided components as instructed in theme book or discourse forum.

- **Acknowledgement**

We, student team **eYRC#GG#1240** from **Manipal Institute of Technology** acknowledge that we have received the Robotic kit. The robotic kit was received as part of the kit sent for the e-Yantra Robotics Competition (eYRC 2023-24).

We understand that we shall return the Robotic Kit (along with all the components) in proper working condition after the competition is over.

We confirm that:

The contents inside the kit are as per list of items and, components are tested as instructed and are found to be in working condition.

We Acknowledge
